This is right and bottom aligned text with a 0.0 mm edge margin set

Single, right, bottom, 0.0

This is right and bottom aligned text with a 2.1 mm edge margin set

Single, right, bottom, 2.1

The boxes above check that letter spacing is taken into account in calculating line breaks. The second one happens to check font substitution for Brush Italic MT which only has an italic entry in the family, but you can only see that when executing locally with a full font set, and not on the github tests

Front title: Testing text boxes
